Use of Methi and Punir based combinations with Medicinal Rice, Mushroom and Millets in treatment of Type II Diabetes and associated diseases through ST-274.

Pankaj Oudhia

Introductory Note

In Traditional Healing, the Traditional Healers of Indian state Chhattisgarh use Methi (*Trigonella foenum-graecum*) and Punir (*Withania coagulans*) based combinations with different types of Medicinal Rice, Mushroom and Millets in treatment of Type II Diabetes and associated diseases through Special Treatment 274. They use it in form of 52 weeks schedule in four sets. I have documented this Traditional medicinal knowledge and added it in Type II Diabetes report in Ecoport.

Recent Ethnobotanical surveys resulted in new information and based on it I prepared modified schedules by adding new herbs and herbal combinations. The basic as well as modified

schedules are present in CGBD database. The efforts are in progress to make CGBD database online. The present documents show basic and modified schedule no.1.
